

Millsap Water Supply Corporation
P.O. Box 158
Millsap, Texas 76066
(940) 682-4416

SERVICE AGREEMENT

I. PURPOSE: The Millsap Water Supply Corporation is responsible for protecting the drinking water supply from contamination or pollution which could result from improper private water distribution system construction or configuration. The purpose of this service agreement is to notify each customer of the restrictions which are in place to provide this protection. The utility enforces these restrictions to ensure the public health and welfare. Each customer must sign this agreement before Millsap Water Supply Corporation will begin service. In addition, when service to an existing connection has been suspended or terminated, the water system will not re-establish service unless it has a signed copy of this agreement.

II. RESTRICTIONS: The following unacceptable practices are prohibited by State regulations:

- A. No direct connection between the public drinking water supply and a potential source of contamination is permitted. Potential sources of contamination shall be isolated from the public water system by an air-gap or an appropriate backflow prevention device.
- B. No cross-connection between the public drinking water supply and a private water system is permitted. These potential threats to the public drinking water supply shall be eliminated at the service connection by the installation of an air-gap reduced pressure-zone backflow prevention device.
- C. No connection which allows water to be returned to the public drinking water supply is permitted.
- D. No pipe or fitting which contains more than 0.25% lead may be used for the installation or repair of plumbing at any connection which provides water for human use.
- E. No solder or flux which contains more than 0.2% lead can be used for the installation or repair of plumbing at any connection which provides water for human use.

III. SERVICE AGREEMENT. The following are the terms of the service agreement between Millsap Water Supply Corporation and _____.

- A. The Millsap Water Supply Corporation will maintain a copy of this agreement as long as the customer and/or the premises is connected to this water system.
- B. The customer shall allow his property to be inspected for possible cross-connections and other potential contamination hazards. This inspection shall be conducted at the member/customer's expense. These inspections shall be conducted by Millsap Water Supply Corporation or its designated agent prior to initiating new water service; when there is reason to believe that cross-connections or other potential contamination hazards exist; or after any major changes to the private water distribution facilities. In the event the applicant is in the process of construction the membership will be considered TEMPORARY until such time as the final Customer Service Inspection is completed and the forms are returned as required. The inspection shall be conducted during our normal business hours.
- C. Millsap Water Supply Corporation shall notify the customer in writing of any cross-connection or other potential contamination hazard which has been identified during the initial inspection or the periodic re-inspection.
- D. The customer shall immediately remove or adequately isolate any potential cross-connections or other potential contamination hazards on his premises.

E. The customer shall, at his expense, properly install, test, and maintain any backflow prevention device required by Millsap Water Supply Corporation. Copies of all testing and maintenance records shall be provided to Millsap Water Supply Corporation.

IV. ENFORCEMENT. If the customer fails to comply with the terms of the Service Agreement, the Millsap Water Supply Corporation shall, at its option, either terminate service or properly install, test, and maintain an appropriate backflow prevention device at the service connection. Any expenses associated with the enforcement of this agreement shall be billed to the customer.
